The following items were considered on the Agenda:

1. Call to Order

The Clayton County Planning and Zoning Commission meeting was called to order at 7:07pm by Chairperson Allan Troester.

2. Old Business: Discussion on vacation rental properties in the unincorporated areas of Clayton County. Patti presented more information she had gathered on the vacation rental permits from Clear Lake citing the reasons why they have the permit process in place. She also researched to find there were about 15-20 short-term vacation rentals in the unincorporated areas of Clayton County. It had come to light legislation that had been signed into law by the governor restricting payments of a fee for any permit required for short-term rentals. Permitting could take place if coincided with other building type inspections done for health and safety. Since Clayton County does not do any type of inspections on residences, the issue became a moot point.

3. Meeting adjourned at 7:25 pm.
